HOW WE TREATED THE STEAMER KILAUEA HOU.

The Steamer Kanaul and James Makee
Back From The Garden Isle—
Slack News Alongshore.

Liner Mariposa tomorrow morning.
The steamer Kanaul came in from Makaweli early this morning with two passengers.
The masts of the schooner Kulamann have been removed and she will hereafter be used as a lighter.

The schooner Kaulilua finished unloading at the railway last evening, and is moored to Fishmarket wharf.

The big ship John McLeod commenced unloading her cargo of Newcastle coal at new Fort street wharf this morning.

President of the Board of Health Smith was on the dock at six o'clock this morning superintending the quarantining of the steamer Kilauea Hou.

The German bark J C Glade, with a general cargo for H Hackfeld & Company, anchored in the stream about two o'clock this afternoon, about 146 days from Liverpool. She will, probably, discharge at the Mad war.

Every one who knows genial Jack Haglund, captain of the steamer Mikabala, is fully convinced that he followed out the orders of the Board of Health at Nawiliwili last week. Jack understands his business, and what he says goes with the boys along the front.

Among other conjectures made (when the fool killer is absent) in regard to the non-arrival of the Warrimoo, the latest one is that the cholera has arrived in Victoria and Vancouver, and the big steamship is hemmed in by a quarantine.

The steamer James Makee arrived from Kapaa this morning with one passenger, a brave young lady who was willing to take chances on the cholera, the Kanaul mail and two big dray loads of potted plants for the Cummins-Fairchild wedding. The citizens of that landing deposited the mail on the wharf and then took to the hills, watching the Makee carefully to see that she left no bacilli on the shores of the healthy Garden Isle.

The steamer Kilauea Hou arrived in this morning with 50 head of cattle from Low's ranch, 2218 bags of sugar from Kukalau and 1304 bags of sugar from Honoum. After unloading her deck load of steers at the cattle pen, she steamed over to the Oceanic wharf where she is unloading her sugar under a strict quarantine. A policeman is in a boat on one side of the steamer and one is placed at the gate and no one is allowed to go on the wharf. It is extremely desirable that this vessel should leave this afternoon and every effort possible is made for this end, as there are over 300 contract laborers over at the quarantine station that the owners of the plantations, they are destined for, need badly. It is proposed that—as soon as the cargo is discharged, or, if she still retains part of her cargo so as to get away quickly, in which case she will secure an indemnity bond from the owners of the sugar—that the steamer will be coaled and moored to the quarantine pier and the laborers be embarked without any communication whatever from this shore.

FITS CURED

(From U. S. Journal of Medicine.)
Prof. W. H. PEEKE, who makes a specialty of Epilepsy, has without doubt treated and cured more cases than any living Physician; his success is astonishing. We have heard of cases of 20 years' standing cured by him. He publishes a valuable work on this disease which he sends with a large bottle of his absolute cure, free to any sufferer who may send their P. O. and Express address. We advise anyone wishing a cure to address, Prof. W. H. PEEKE, P. D., 4 Cedar St., New York.

TO OWNERS OF BUILDINGS.

The undersigned having purchased the exclusive right, title and interest for the manufacture and use of the PEERLESS PRESERVING PAINT in and for the Hawaiian Islands, desire to call the attention of owners of buildings to the superiority of this Paint for the purpose of Preserving Shingles, Metals, Iron, Steel, Bridges, Posts, etc., against rust, corrosion, decay and leakage. One generous coat of the Peerless Preserving Paint has been found equal if not superior to three coats of any other Paint, and we guarantee it will not scale, crack, or run, it being possessed of a body when applied in which there is no OIL, SPIRITS OR EVAPORATIVE SUBSTANCE. In using this Paint upon a shingle roof its FIRE-PROOF qualities are one of the chief advantages, as it renders the roof impervious to sparks which may fall upon it in the driest season without the slightest injurious effects. The main features which the PEERLESS PRESERVING PAINT offers for its use upon roofs are its thorough resistance to any action of heat or cold, and its wonderful PRESERVING qualities which fully prevent any action from either RUST OR DECAY.

We are prepared to execute and carry out special contracts for the application of the PEERLESS PRESERVING PAINT on any of the Islands. All contracts undertaken by us will be fully GUARANTEED. Our prices for this class of work are extremely moderate, and roofs to which Paint is applied by us are guaranteed against leaks, cracks, scales or runs for a period of years, estimated upon the age of the roof when the work is performed.

Examinations made and estimates given in all work free of charge, and references given by application at our office.
